

*Thank You*

To: Dr. Hut, Dr. Mehrose, Dr. Brodsky  
and the rest of the staff,

12/2011

When I first came to your hospital in September, I was very impressed with how you took care of the animals coming to you for treatment. I left there knowing I had seen the best.

This past Sunday, you all moved past impressing me to deeply touching me with how you took care of my Abby in her last moments. You made a very sad situation more bearable.

I know that Abby was handled as if she were one of your own pets. I just want to thank you for my mother and myself. Best regards,

Donna Saporita
