

Dear Dr. Le Croix and all my Friends at VMCLI,

Hi everyone. I'm so glad to be able to SEE all of you. It's hard for me to be able to express to you in doggie words how grateful my mommies and me are for giving me my eyesight back and for taking such good care of me but I will do my best. It has been a very long road, but I made it. I have been running and playing again in the snow for the first time this year, play with my boyfriend, Rocky (he's very excited) and bark at everything and anything that passes in front of my house. I feel like a puppy again and I have all of you to thank.

Because of your love, kindness and skill you have reopened my world again and for that I will be forever grateful.

Love,  
Suzie
